About MarsTech
We are a digitally native company where innovation, design, and engineering meet technology. We use the latest technologies in the digital and cognitive field to empower organizations/ businesses in every aspect.
Be part of a company with the most cutting-edge technologies and industry-standard coding practices in addition to a unique and committed team of graduates.

With MarsTech you will get the chance to work with professionals who have created solutions in their fields, develop your career with our team, and earn a certificate of internship.

Job Title:
Intern - Frontend

Experience Level:
Fresher

What Are We Looking For?
We are looking for a Front-end developer Intern to join our team at Marstech! As a candidate, you must believe and love what you do, make "No's" become "What ifs", be flexible & goal-oriented and you must be capable of taking a step ahead to look at a bigger picture.

Job Description:

- Developing new user-facing features using React.js, Redux, Next.js, Node.js, MongoDB, Express,
- Translating designs and wireframes into high-quality reusable code
- Helping maintain code quality.
- Leverage native APIs for deep integrations with both platforms.
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers

Necessary Skills:

- Strong proficiency in JavaScript, including DOM manipulation and JavaScript object model.
- Thorough understanding of React.js and its core principles
- Strong knowledge of HTML5/CSS3, JQuery, JSON, XML, REST API, JavaScript, TypeScript, Node.js
- Great Team player, Hard Worker, and time-management skills
- Great interpersonal and communication skills
- Having knowledge of Node.js would be a plus.

Working Hours:
We are currently working remotely under flexible hours. As long as the assigned task is completed within the deadline you can work as per your comfort.

Note:
Be empowered to choose your career path; we have multiple projects with different technologies, so you can choose where and how to work. Be part of an agile team and experience an agile methodology.
